20 Corporation Row, Edison, NJ 08817
Phone (718) 478 5100, Fax (718) 478 5117
www.silvafurniture.com

Required tools: Allen wrench (supplied), Phillips screwdriver (not supplied).

CAUTION: Do not use a power screwdriver which can cause screws to break or strip

Be sure to **COMPLETELY TIGHTEN** the screws / bolts when you are asked to do so.

Note: The letters which identifies a part are the initials of the respective part name (such method is employed to facilitate parts recognition between the drawings and the parts list).

Please locate and confirm that you have the following parts:

BR. bed rails = 2

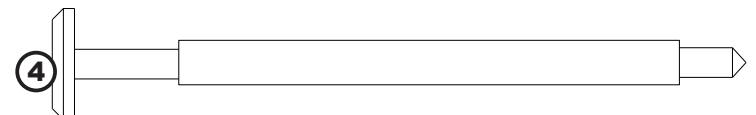

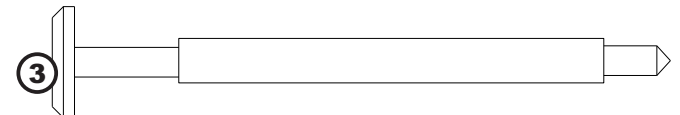

SL. group of support slats assembled with textile ribbons = 2

one bag of hardware with the following:

1. Allen wrench = 1
2. wood screw (35mm - 1 3/8") = 8
3. Allen bolts (70mm - 2 3/4") = 4 - only for PSP100-01, PSP200-01 & PSP300-01
4. Allen bolts (80mm - 3 1/8") = 4 - only for PSP400-01
5. barrel nuts = 4

printed in full size

STEP 1A (For SILVA PSP100-01, PSP200-01 & PSP300-01 cribs - two adults are required to complete this step)

Only one crib is depicted here - the procedure is the same for the other two cribs.

Completely disassemble your crib, taking care not to scratch the wood finish. (see **STEPS 3A** and **2A** from “**ASSEMBLY INSTRUCTIONS FOR YOUR SILVA CONVERTIBLE CRIB**”).

Keep the footboard and the headboard of your crib for the next step and carefully store the other resulted wooden pieces and hardware in a proper place, away from direct sunlight and moisture, taking care not to scratch the wood finish.

STEP 2A (For SILVA PSP100-01, PSP200-01 & PSP300-01 cribs - two adults are required to complete this step)

Only one crib is depicted here - the procedure is the same for the other two cribs.

Attach the bed rails (**BR**) to the headboard (**HB**) of the crib using all four Allen bolts (**3**) and all four barrel nuts (**5**). Make sure that the wood brackets attached to the bed rails faces towards the inside of the bed.

Align the straight slots in the head of the barrel nuts horizontally, so the threads in the bolts will insert in the barrel nuts. You can adjust the position of the barrel nut with a flat head screwdriver (not supplied) or a coin.

Push the Allen bolts through the headboard and into the bed rail. Start the threads by hand to assure you don't strip the threads then use the supplied Allen wrench (**1**).

Do not completely tighten the bolts at this step, you will be asked to do that later.

STEP 3A (For SILVA PSP100-01, PSP200-01 & PSP300-01 cribs - two adults are required to complete this step)

Only one crib is depicted here - the procedure is the same for the other two cribs.

Insert the metallic hooks attached at the ends of the bed rails into the slots provided in the footboard's legs, so the hooks will catch the inner metallic pins. Make sure that both bed rails are firmly attached to the footboard (**FB**).

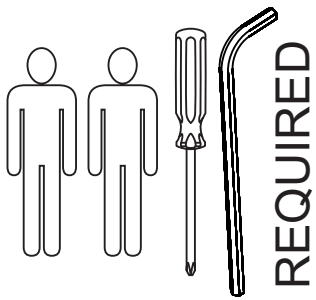

Completely tighten all four Allen bolts.

STEP 4A (For SILVA PSP100-01, PSP200-01 & PSP300-01 cribs - two adults are required to complete this step)

Only one crib is depicted here - the procedure is the same for the other two cribs.

Place the support slats (**SL**) onto the wood brackets attached to the bed rails. Position the support slats evenly between the bed ends. Make sure you firmly attach the support slats to the wood brackets using all eight wood screws (**2**) provided. Use a Phillips screwdriver (not supplied) to completely tighten the screws.

After completing **STEP 4A** your bed should look like one of the beds depicted on the first page of this instruction booklet.

WARNING!
COMPLETELY TIGHTEN!

WARNING: TO KEEP YOUR BABY
SECURE AND SAFE, AND TO AVOID
POTENTIAL INJURY OR DEATH, IT'S **VERY**
IMPORTANT TO COMPLETELY TIGHTEN
ALL 12 BOLTS AND SCREWS LISTED IN
STEPS 1A-4A.

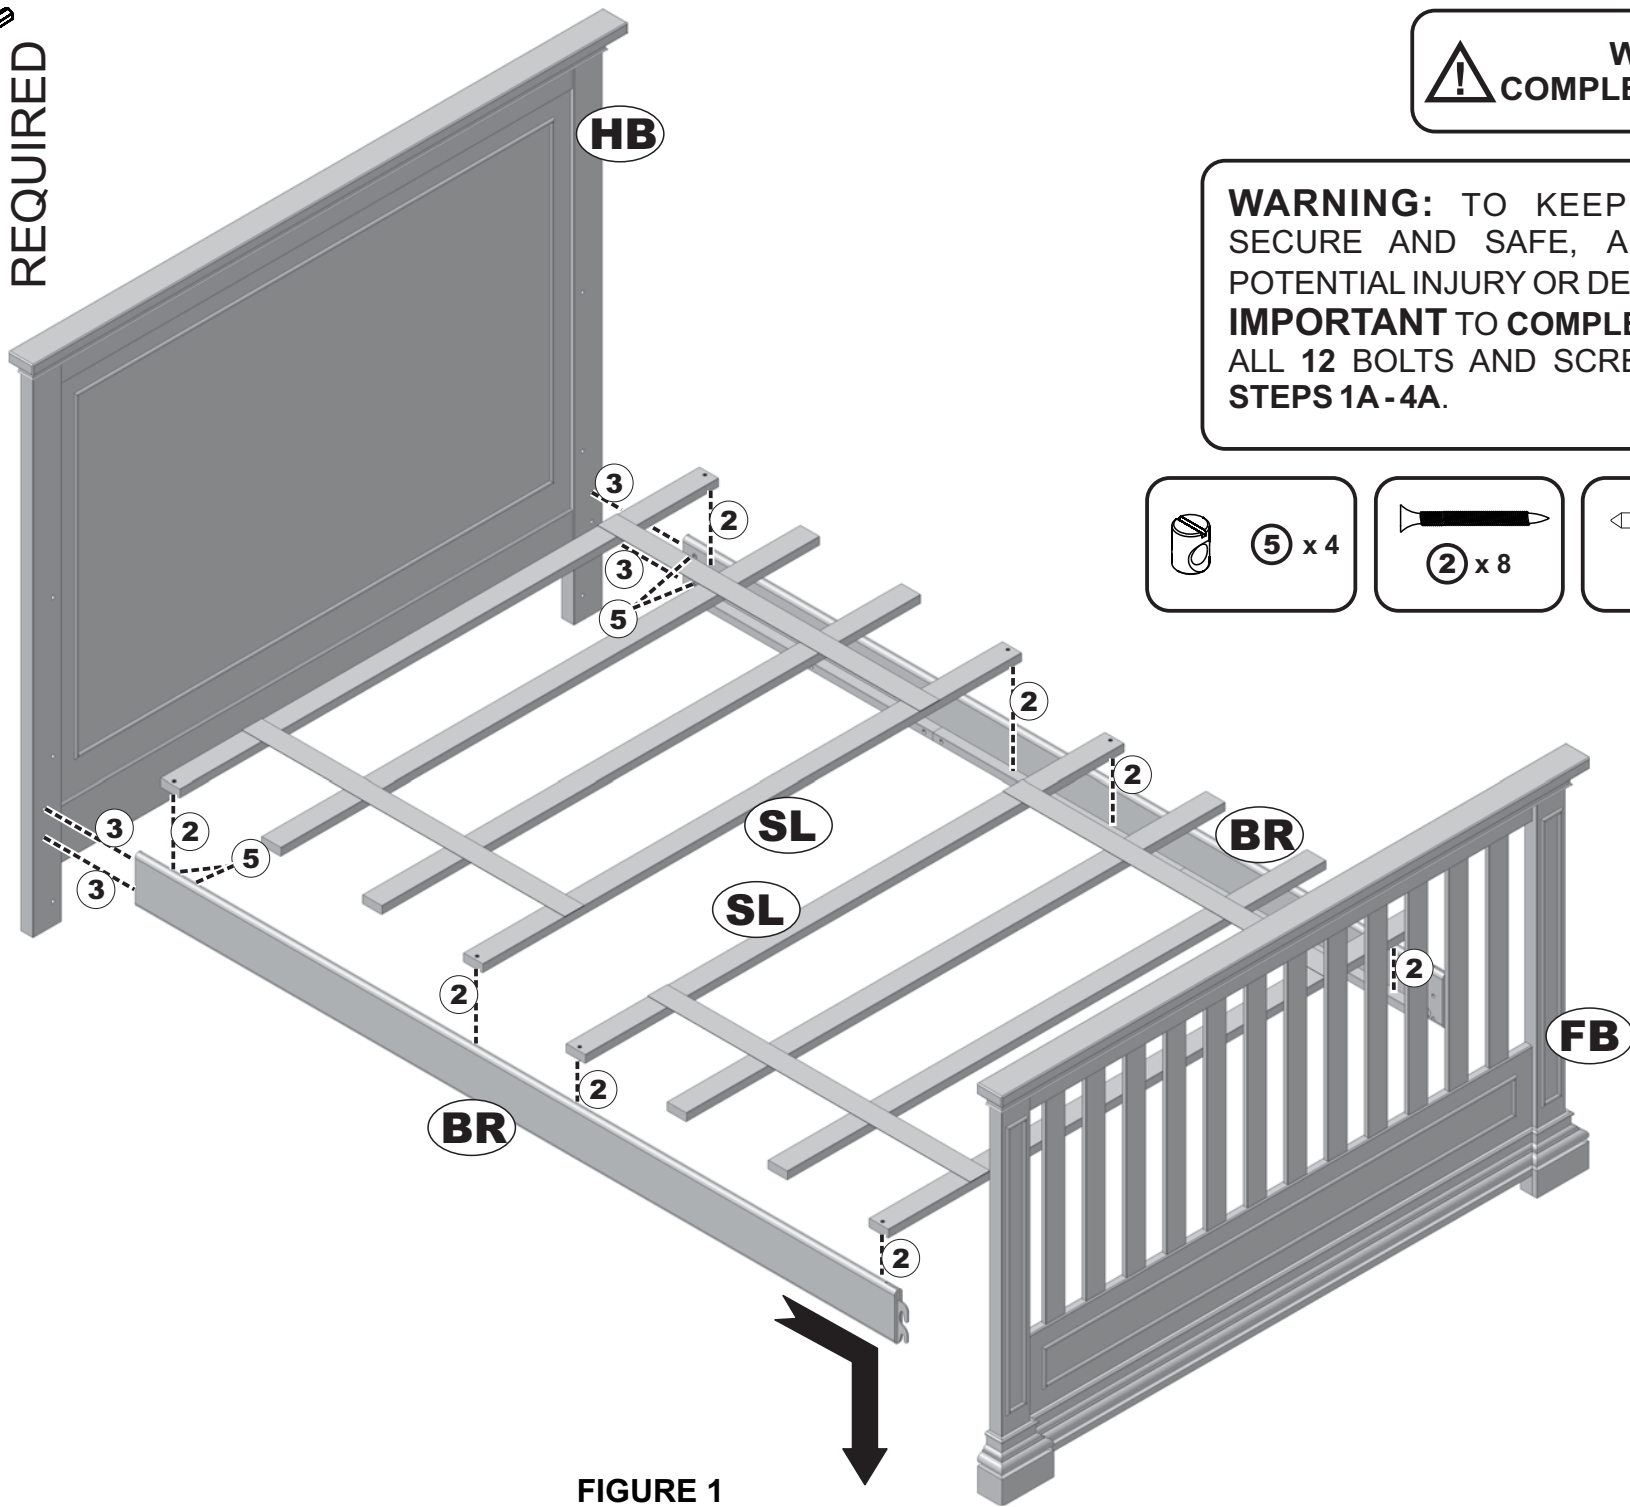

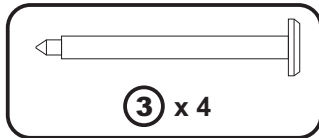

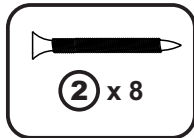

FIGURE 1

STEP 1B (For SILVA PSP400-01 - two adults are required to complete this step)

Completely disassemble your crib, taking care not to scratch the wood finish. (see **STEPS 3B** and **2B** from “**ASSEMBLY INSTRUCTIONS FOR YOUR SILVA CONVERTIBLE CRIB**”).

Keep the footboard and the headboard of your crib for the next step and carefully store the other resulted wooden pieces and hardware in a proper place, away from direct sunlight and moisture, taking care not to scratch the wood finish.

STEP 2B(For SILVA PSP400-01 - two adults are required to complete this step)

Attach the bed rails (**BR**) to the headboard (**HB**) of the crib using all four Allen bolts (**4**) and all four barrel nuts (**5**). Make sure that the wood brackets attached to the bed rails faces towards the inside of the bed.

Align the straight slots in the head of the barrel nuts horizontally, so the threads in the bolts will insert in the barrel nuts. You can adjust the position of the barrel nut with a flat head screwdriver (not supplied) or a coin.

Push the Allen bolts through the headboard and into the bed rail. Start the threads by hand to assure you don't strip the threads then use the supplied Allen wrench (**1**).

Do not completely tighten the bolts at this step, you will be asked to do that later.

STEP 3B (For SILVA PSP400-01 - two adults are required to complete this step)

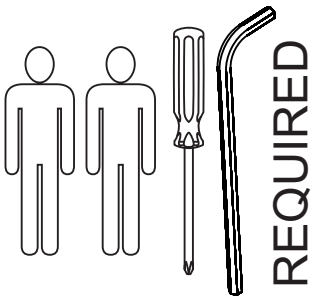

Insert the metallic hooks attached at the ends of the bed rails into the slots provided in the footboard's legs, so the hooks will catch the inner metallic pins. Make sure that both bed rails are firmly attached to the footboard (**FB**).

Completely tighten all four Allen bolts.

STEP 4B (For SILVA PSP400-01 - two adults are required to complete this step)

Place the support slats (**SL**) onto the wood brackets attached to the bed rails. Position the support slats evenly between the bed ends. Make sure you firmly attach the support slats to the wood brackets using all eight wood screws (**2**) provided. Use a Phillips screwdriver (not supplied) to completely tighten the screws.

After completing **STEP 4B** your bed should look like one of the beds depicted on the first page of this instruction booklet.

WARNING!
COMPLETELY TIGHTEN!

WARNING: TO KEEP YOUR BABY SECURE AND SAFE, AND TO AVOID POTENTIAL INJURY OR DEATH, IT'S **VERY IMPORTANT TO COMPLETELY TIGHTEN ALL 12 BOLTS AND SCREWS LISTED IN STEPS 1B - 4B.**

GENERAL FURNITURE CARE TIPS

- Wood, like any natural material is likely to present variations of grain and texture which will result in slight color variations or richness in the finish. These differences make each Silva Furniture item as beautiful and unique as you and your baby are.
- To preserve the initial appearance and functionality of your furniture, it is recommended that all furniture items be used in accordance with their intended design.
- Special water-based finishes are used to make this furniture safe for your baby. These finishes may be more delicate than those used on adult furniture thus requiring careful maintenance.
- Constant rubbing or mechanical interaction with sharp/hard objects such as belt buckles, jeans' zippers or buttons will likely damage the finish on your furniture. When placing or retrieving items onto the furniture, always set them down and pick them up, do not "slide" them. Items placed onto the horizontal surfaces must be moved/rotated to prevent discoloration in the finish.
- Exposure to extreme variations of environmental conditions such as humidity and temperature can affect the finish quality due to wood sudden expansion or shrinkage. It is recommended that the room temperature be maintained in between 65 and 75 degrees Fahrenheit and a relative humidity of 35 – 40 %. Do not place items which are too hot or too cold directly onto the finished surfaces!
- Use caution when using a humidifier or vaporizer. Excessive moisture is harmful to the furniture causing the finish to peel and the wood to warp.
- Wipe up spills promptly. If water or other liquids stay in contact with the furniture for a long period of time, they can cause the finish to turn white or discolor. Alcohol or solvent containing substances or materials will permanently damage the finish.
- In general, furniture should not be placed in front or too close to air-conditioning outlets, fireplaces, heaters or humidifiers. Direct sunlight and ultraviolet rays will cause colors to fade, affect the luster and smoothness of the finish and in most cases may cause hairline cracks in the finish. White finishes will yellow naturally over time; exposure to direct sunlight will accelerate this natural process. Please note that all wood essences will darken over time along with the natural aging process which is not considered to be a quality defect.
- To clean the furniture, use a damp cloth immediately followed by wiping with a dry cloth. Do not allow water to stay in contact with the finish as it will damage the finish.
- If you need to put your furniture into storage for any period of time, avoid placing it in damp basements or hot attics. Air flow around and under the furniture should be allowed. Do not place furniture too close to walls, do not stack anything on it and do not cover it entirely.
- When using a vinyl changing pad or similar plastic accessories, make sure to use a fabric felt underneath. Certain plastics have ingredients that can react with and damage the finish. It is recommended to rotate the changing pad's position frequently to avoid finish discoloration.

Regular cleaning with mild soap on a soft cloth, followed by a clean damp cloth, then a dry cloth, will preserve the original luster and beauty of the fine finish of your Silva Furniture product.

Thank you for being one of our distinguished clients.
